Department of Technical Education

FORMAT 4

Student's Daily Log Book

Day-1	Date:
Time of Arrival	Time of Departure
Dept/Division	Nature of work
Name of the Supervisor With designation and email ID	
Remarks of the Training supervisor:	

Record Main actives of the day (including observation, sketches, discussions, etc)

Voice assistant :-

1) Explanation (What about project)
Voice assistant in python program that
- listens to your voice
- understand your command
- performs task automatically

2) Code with commands :-
step 1 - Start program
if __name__ == '__main__':

step 2 - Clear screen
clear = lambda: os.system('cls')
clear()

Signature of Industry Supervisor

FORMAT 4

Student's Daily Log Book

Day-1	Date:
Time of Arrival	Time of Departure
Dept/Division	Nature of work
Name of the Supervisor With designation and email ID	
Remarks of the Training supervisor:	

Record Main actives of the day (including observation, sketches, discussions, etc)

Code with explanation

1. import libraries

```
import os
import datetime
import webbrowser
import speech_recognition as sr
import pyttsx3
import wikipedia
import pyjokes
```

These libraries help to:

- speak → pyttsx3
- listen → speech_recognition
- open websites → webbrowser
- search → wikipedia
- jokes → pyjokes
- system control → os

FORMAT 4

Student's Daily Log Book

Day-1	Date:
Time of Arrival	Time of Departure
Dept/Division	Nature of work
Name of the Supervisor With designation and email ID	
Remarks of the Training supervisor:	

Record Main actives of the day (including observation, sketches, discussions, etc)

2. speak function (jarvis talks)

```
def speak(audio):
    engine.say(audio)
    engine.runAndWait()
```

- converts text → voice
- jarvis speak output

Ex:-

```
speak("Hello")
```

3. Take command function (jarvis listens)

```
def takecommand():
    r = sr.Recognizer()
```
